(2) Proposed amendments must be reviewed by the Medical Staff Executive Committee prior to a vote by the Medical Staff. Such a conference will be scheduled by the Chief Executive Officer within two weeks after receipt of a request.

(8) Neither the Medical Staff Executive Committee, the Medical Staff, nor the Board can unilaterally amend these Bylaws.

8.B. OTHER MEDICAL STAFF DOCUMENTS

Communication from Medical Staff Members to the Board will be directed through the Chief Executive Officer, who will forward the request for communication to the Board Chair. The Chief Executive Officer will also provide notification to the Medical Staff Executive Committee by informing the President of the Medical Staff of such exchanges. (2) The scope of the medical history and physical examination will include, as pertinent:

(a) patient identification;
(b) chief complaint;
(c) history of present illness;
(d) review of systems, to include at a minimum:
   - cardiovascular;
   - respiratory;
   - gastrointestinal;
   - neuromusculoskeletal; and
   - skin;
(e) personal medical history, including medications and allergies;
(f) family medical history;
(g) social history, including any abuse or neglect;
(h) physical examination, to include pertinent findings in those organ systems relevant to the presenting illness and to co-existing diagnoses;
(i) data reviewed;
(j) assessments, including problem list;
(k) plan of treatment; and
(l) if applicable, signs of abuse, neglect, addiction or emotional/behavioral disorder, which will be specifically documented in the physical examination, and any need for restraint or seclusion will be documented in the plan of treatment.

In the case of a pediatric patient, the history and physical examination report must also include: (i) developmental age; (ii) length or height; (iii) weight; (iv) head circumference (if appropriate); and (v) immunization status.

(b) H&Ps Performed Prior to Admission

(1) Any history and physical performed more than 30 days prior to an admission or registration is invalid and may not be entered into the medical record.

(2) If a medical history and physical examination has been completed within the 30-day period prior to admission or registration, a durable, legible copy of this report may be used in the patient’s medical record. However, in these circumstances, the patient must also be evaluated within 24 hours of the time of admission/registration or prior to surgery/invasive procedure, whichever comes first, and an update recorded in the medical record.

(3) The update of the history and physical examination will be based upon an examination of the patient and must (i) reflect any changes in the patient’s condition since the date of the original history and physical that might be significant for the planned course of treatment or (ii) state that there have been no changes in the patient’s condition.

(4) In the case of readmission of a patient, previous records will be made available by the Hospital for review and use by the attending physician.

(2) In an emergency situation, when there is no time to record either a complete or a Short Stay history and physical, the attending physician will record an admission or progress note immediately prior to the procedure. The admission or progress note will document, at a minimum, an assessment of the patient’s heart rate, respiratory rate, and blood pressure. Immediately following the emergency
procedure, the attending physician is then required to complete and document a complete history and physical examination.

(d) **Short Stay Documentation Requirements**

A Short Stay History and Physical Form, approved by the Medical Staff Executive Committee, may be utilized for (i) ambulatory or same day procedures, or (ii) short stay observations which do not meet inpatient criteria. These forms will document the chief complaint or reason for the procedure, the relevant history of the present illness or injury, and the patient’s current clinical condition/physical findings.

(e) **Prenatal Records**

The current obstetrical record will include a complete prenatal record. The prenatal record may be a legible copy of the admitting physician’s office record transferred to the Hospital before admission. An interval admission note must be written that includes pertinent additions to the history and any subsequent changes in the physical findings.
